ROOMS & SUITES

A private view of Shanghai

Four considered spaces, each composed for rest, conversation and the changing river light.

The image shows a luxurious hotel room with a dark teal background and intricate gold-colored Art Deco geometric patterns on the walls. A large king-sized bed with white linens is centered against the patterned wall. On either side of the bed are bedside tables with lamps that have white shades and gold bases. The room has a sophisticated and modern feel with classic Art Deco influences.
